CORPORATION BILL WILL BE REPORTED

Sweeping Changes Made in the House Measure by Committee.

The Senate Committees on Roads and Courts of Justice held an executive session last night and completed the consideration of House bill No. 102, relating to the organization and government of corporations, and a great many changes were made.

Indeed, it is said that should Colonel Caton, who drew the original bill, meet it on the street as it comes from the Senate committees, he would not recog-

senate committees, its would not recognize it.

The chief change consists in amendments medifying the merger clause, they having been presented in the Senate by Messrs. Whitehead and Cogbill, and adopted by the committees.

The bill now forbids the merging of parallel and competing lines, and places all foreign corporations on the same footing with demestic ones in this matter. Another important modification is that which kesps all chartered corporations under legislative control by striking out the provisions which gave almost unlimited and unrestricted powers to corporations.

limited and unrestricted powers to corporations.

All foreign corporations are made domestic to all intents and purposes when they come into Virginia, and they are required to pay regular charter fees and otherwise conform to State laws governing domestic corporations.

But these are but a few of the amendments and changes.

The bill will be reported to the Senate to-day, and members of the committees declare that in its present shape they believe it satisfactory to all parties concerned. Notwithstanding this view, there will likely be something of a fight in the Senate.

NORTH CAROLINA TO BE REPRESENTED

Colonel John S. Cuningham, of North Carolina, a well known tobacco grower and publicist of that State, well known in Virginia, last night commended the action of the Senate Finance Committee in recommending the Jamestown appropriation, and expressed the belief that North Carolina would fall into line and do its part towards the exposition. He expressed regret that he could not be here to aid in urging the bill, for with his experience in connection with expesitions he gave the movement unqualified endorsement. He was h commissioner to the Partis Exposition, and stated that the State's exhibit at that exposition had been worth a large sum to it and had been expended the promises that his State will be represented at Jamestown.
